ABOUT THE CONFERENCE

The International Conference on Artificial Intelligence in Higher Education: Transforming Teaching and Learning serves as a premier global forum for educators, researchers, and policymakers to navigate the profound shift toward an AI-integrated academic landscape. Set against the backdrop of 2026, this conference moves beyond the initial shock of generative AI to focus on sustainable, high-impact implementation that prioritizes both technological efficiency and human-centric pedagogy. Participants will engage in high-level discourse regarding the democratization of education through personalized learning pathways, the ethical implications of predictive analytics in student retention, and the urgent need to redefine academic integrity in an era of co-creation. By bridging the gap between cutting-edge computational power and traditional scholarship, the event explores how AI can dismantle administrative burdens, allowing faculty to return to their core mission of mentorship. From hands-on workshops on "AI-resilient" assessment design to visionary panels on the "AI Divide," this conference is dedicated to ensuring that the digital transformation of the university remains equitable, transparent, and intellectually rigorous, ultimately preparing the next generation of global citizens for a workforce where AI literacy is no longer optional, but fundamental.

OBJECTIVES OF CONFERENCE

- **Innovate Pedagogy: Move beyond traditional lectures to AI-supported active learning and "human-in-the-loop" instruction.**
- **Ensure Equity: Develop strategies to prevent the "AI Divide" and support neurodiverse and disadvantaged learners.**
- **Redefine Assessment: Transition from essay-based evaluation to multi-modal and process-based assessments.**
- **Future-Proof Careers: Equip students with the high-level "AI Literacy" and critical thinking required for the 2026 workforce.**

CALL FOR PAPERS

- **MANAGEMENT**
- **COMMERCE**
- **SCIENCE & FORENSIC SCIENCE**
- **HUMANITIES**
- **LANGUAGES**
- **ENGINEERING & TECHNOLOGY**
- **FINE ARTS**
- **ARCHITECTURE**
- **AGRICULTURE**
- **LAW**
- **JOURNALISM**
- **TEXTILE**
- **TO SUBMIT THEIR THEORITICAL, EMPIRICAL, SCIENTIFIC PAPERS IN THE CONFERENCE**

- **Note: Any other topic related to the theme directly or indirectly is equally welcome and appreciated.**

SUB - THEMES

Artificial Intelligence in Higher Education: Transforming Teaching and Learning

1. COMMERCE

AI in Accounting and Auditing Education
AI for Financial Analysis and Investment Studies
FinTech, AI, and Digital Banking Education
AI in E-commerce and Digital Marketing
AI for Business Analytics and Decision Making
AI in Taxation and Compliance Studies
AI-based Risk Management and Fraud Detection
AI for Entrepreneurship and Startup Education

2. ARTS / HUMANITIES

AI in Language Learning and Translation Studies
AI for Literature, Cultural Studies, and Digital Humanities
AI in History, Sociology, and Political Science
AI and Creativity: Art, Music, and Design Education
AI for Journalism, Media, and Mass Communication
Ethics, Philosophy, and AI in Humanities
AI in Psychology and Behavioral Studies
AI for Teacher Education and Pedagogy

3. MANAGEMENT

AI in Strategic Management and Business Planning
AI for Human Resource Management and Talent Analytics
AI in Marketing and Consumer Behavior
AI for Operations and Supply Chain Management
AI in Project Management and Decision Support Systems
AI in Leadership Development and Executive Education
AI for Customer Relationship Management (CRM)
AI in Organizational Behavior and Change Management

4. SCIENCE

AI in Data Science and Computational Studies
AI for Physics, Chemistry, and Mathematical Modeling
AI in Life Sciences and Biotechnology Education
AI in Environmental Science and Climate Studies
AI for Healthcare, Medical, and Pharmacy Education
AI in Engineering and Robotics Education
AI for Research Methods and Scientific Simulations
AI in Cybersecurity and Network Studies

5. EDUCATION & INTERDISCIPLINARY

AI in Curriculum Design and Educational Planning
AI for Assessment, Evaluation, and Examination Systems
AI-based Learning Analytics and Student Performance
AI for Inclusive, Special, and Remedial Education
AI in Online, Distance, and Open Learning
AI for Teacher Training and Professional Development
AI in Educational Administration and Governance
AI for Lifelong Learning and Skill Development
