ABOUT THE CONFERENCE

In the contemporary era of rapid socio-economic and technological transformation, research, innovation, and entrepreneurship have emerged as key drivers of national development. Research generates new knowledge, innovation transforms that knowledge into practical solutions, and entrepreneurship converts innovation into economic and social value. Together, they play a critical role in addressing national challenges such as sustainable growth, employment generation, digital transformation, competitiveness. social inclusion, and global This One-Day National Conference aims to provide a multidisciplinary platform for academicians, researchers, scholars, industry professionals, entrepreneurs, and students to deliberate, exchange ideas, and present research findings related to the role of research, innovation, and entrepreneurship in strengthening national development. The conference encourages interdisciplinary and practice-oriented research contributions aligned with national priorities and global trends.

OBJECTIVES OF CONFERENCE

- To promote a research culture that contributes to national growth and development
- To encourage innovation-driven solutions for societal and economic challenges
- To explore the role of entrepreneurship and startups in nation building
- To provide a platform for interdisciplinary academic interaction
- To foster collaboration among academia, industry and policy makers
